About This Content

The battles haven't stopped raging in the kingdom! Invisible Threat contains three new episodes for true tower defense fans. We've spent more time on balancing the levels for Steam players. We've also added new enemies to diversify the game. You'll need to use new tactics to beat them!

Key Features

- **Three new episodes**

Wasteland – orcs have hidden amongst sharp and dangerous cliffs.

Fiery Plateau – destroy all the enemies on a burning plateau.

Mystic Valley – defend yourself against mystical creatures in an enchanted forest.

• **Four new units**, each with its own unique abilities.
Skeleton, Necromancer, Fire Elemental, Nature Elemental.

• **Four new achievements**. Unique quests made specially for the new episodes. Challenge yourself with exciting trials!

• The DLC also contains 150 free crystals for store upgrades. You can spend them however you like, since you don't need them to complete the game.

Please leave your comments and suggestions for improving the game and the genre!

Curtis Age: 42 Height: 6'4" Weight: 230lbs Sign: Scorpio

A quiet, hulking, powerhouse. He is both the storm and the preceding calm. With unruffled, unwavering poise, he dispatches foes with an unworldly power as enigmatic and perplexing as the motives that drive him.

Meditate (AP Boost)

Curtis enters a meditative state and gains bonus defense that round and bonus attack the next.

Chi Wave - 2SAP (Lvl 1) **MAG**

From one fierce punch, Curtis conjures a powerful wave of chakra energy to blast through multiple foes.

Mind Read - SAP (Lvl 1) **N/A**

Enter the very depths of your enemy's mind to learn their HP, weaknesses, and resistances. A must use on bosses to reveal their health bar, which is hidden at first.

Suplex - 3SAP (Lvl 5) **ATK**

Defying all odds, Curtis heaves an enemy straight into the sky and sends them cascading into the ground with meteoric intensity!

This game at the start, I hated. BUT....

After 3 quick updates in the past month the game has been changed and tweaked to perfection.

The handling is great now around corners and scrubs have been improved greatly!

The AI seem less annoying and additions to the multiplayer side of the game really add to the direction Milestone are heading.

I would recommend this to anyone who likes supercross because its a good game now and I believe in the future it will be the best game Milestone have made so far in the series.. Very fun platforming game, highly recommended! The coop aspect of the game, as well as pc players ability to show different emotions makes for some very fun moments.. Literally the worst game I have ever played, both in entertainment and technicality.

I know its been a while, but this game was so bad I still remember it for how awful it truly was.. it is not working wtf. Ucking awful.. You get what you pay for I guess.

The single player AI opponent is terrible.. Can't explain it, but this game is pretty garbage, refunded it after 77 minutes.. Damn!

It was fun for 5 mins.

The only positive in this game is the music.

Gave me eye cancer. Womit warning. GG WP

Cheaper than Sniper Elite 2's DLC where you can kill Hitler!

For real:

Don't know how is this abomination got release on Steam.

I know It's made only for joke. At least, I hope so!. Finally a combat flight simulation that offers a realistic mode and also a casual mode for groundhogs like me. Playing on realistic is a challenge, as you can easily stall and crash, but it seems as close to the real thing as you can get in front of a screen. Can be used without a flight stick, but of course using one is heavily recommended.

I thought I would never enjoy another WW2 game, as the topic has been abused ad nauseam. But this one is worth playing even if the mention of WW2 usually has you running in the other direction at escape velocity.. Do you like Bejeweled and Pokemon? Then this game was literally made for you

Keeps you playing to see how far you can get, in order to unlock new gameplay modes.

The further you get the bigger the levels get, as well as the darker they get.

May get a little repetitive after awhile, but for ~\$2 you really can't go wrong picking up this game and having a little fun with it.. I'm a huge fan of the Broken Sword series and have been for a very long time. So naturally I picked up the bundle of all the games when it was on sale.

Unfortunately this one is easily the weakest, and I didn't get too far in it. I wanted to get into the story, dig into George's next adventure and see what terrible situation he was going to wind up in this time. But even on the lowest graphics settings the framerate is awful and the game runs in a very janky manner. The controls also feel a little weird. It seemed to be going for some sort of hybrid approach between free 3D movement (as in The Sleeping Dragon) while combining point-and-click from the first two games, but it felt strangely awkward to use.

I may revisit this one at some point, but I got too frustrated with the jankiness to continue. If you're going to introduce someone to the Broken Sword series, don't use this one. I'd only really recommend this if you're a diehard fan of the series. Maybe there's a mod out there to fix the weirdness, but I have yet to find it.

But as it stands right now I can't really give a full recommendation. Which is a shame because the story premise was rather intriguing.. I am very pleased with this game. It's one of those games that the screen shots don't do justice to at all. Being on the platform and shooting feels really good, and the idea, while simple, has been done in a pretty neat way. Don't fall off the ledge!. I enjoy this very much. It's really like Chips Challenge and I couldn't get enough of that one either at the time. The puzzles are sometimes easy, but there is always some challenge to get all the "treasures".. Love this game, great job man!!! I want to see more of this in the future. MUST PLAY!!!!. This game, while not horrible, or broken, IS fundamentally flawed. The levels seem chosen randomly without a clear sense of progression from one to the next. The lack of an option menu is a problem, despite the "we don't have an option menu" achievement. Some of us would like to turn the music volume down. The gameplay though, is functional if simplistic. Still I can't really recommend this since there are plenty of better similar games for only a

little bit more money. I unlocked all the achievements in under an hour, and really can't say I enjoyed it.. Very clunky. You have to use the arrow keys to move around the map.

Intros are just text with a picture. Very unfinished.

Has potential, but at this stage, is slow, tedious, and boring.

I might be spoiled from Sol Survivor, AOE2 TD's, even Prime World: Defenders.

If this game was made by 3 brothers then Bravo! Well done. (you can tell English is not their first language. which is ok, but you can tell)

However, it shouldn't be on Steam. It's not in the same league of games for today's standards.

With a lot more work this 'could' be a very good game. At the current state it is amateurish and it shows.

I only paid \$3.74, but for today's standard that's about \$2.74 more than it's worth.

I hope they keep developing this game, it has potential. If they were to fill in cut scenes, fix the clunky interface, add voice acting and some animations it might be worth \$5.

At the current state, it just got boring real quick. And I really would rather give it a much better review because of the potential..
